CITY OF CROWN POINT ASKS RESIDENTS TO SIGN-UP TO RECEIVE LOCAL ALERTS

Crown Point, IN - The City of Crown Point has partnered with Nixle to implement a new Community Notification System to alert residents in real-time for localized emergency situations, relevant community information and advisories. The City is strongly urging that all residents and neighbors, regardless if they have received information in the past, to supply and/or update their information in the new system.

As a resident, there are several simple ways to register:
1. Text MyCP to 888777 from your mobile phone
2. Go to www.CrownPoint.IN.gov and sign up via the Nixle Widget (located under the Around Your City section on the home page)

Once registered, residents will receive a confirmation. Residents may also customize their alert settings by going to www.nixle.com and creating a User Profile.

"Being a tight-knit, transparent community, we are always looking for ways to keep our residents and businesses informed and safe. The solution offers a wonderful opportunity to do both across a wide array of media platforms"

Additional Info
All Alerts will be targeted geographically, allowing residents to receive localized, relevant alerts from the City of Crown Point. Alerts can be sent via Text, Email, Voice, Web, Social Media, and the Nixle Mobile App in an instant. Nixle is partnered with NLETS for unmatched data security, as well as the National Center for Missing and Exploited Children, the National Blue Alert Network, and Google for unmatched reach and two-way information exchange.
